Subject: Legionella Information for Genesee County?

Hi Mark,

As noted in my voicemail, I've been assigned as the *Legionella* point person for Region 5 and trying to obtain any recent information on the first case of Legionellosis confirmed in Genesee County this year. Have you received any info on the details of the case? Also, I would greatly appreciate if you could include me on your group email list for any new *Legionella* developments in Flint/Genesee County.

Thanks!
-Kim
